

## “PYX CARES” AND BRINGS STRENGTH AND COMMITMENT TO NATIONAL BLOOD DRIVE

PYX Resources Limited, the leading international premium zircon producer, is pleased to announce its recent collaboration with Indonesia’s National Blood Donor Programme.

The company’s Indonesian mining company subsidiary, PT Investasi Mandiri, recently participated in the commemoration of Indonesian National Blood Donor Day by contributing to the blood donation social activities under the theme “Give Blood, Save Life.”

*The PYX team celebrate a highly successful blood donation campaign at Tumbang Empas.*

This event was carried out at PYX’s factory in Tumbang Empas village and was attended by 50 employees who were all proud to be part of a programme to help save lives through the donation of blood.

To date, PYX is the only company in the district to have an involvement in the blood bank drive, and it is hoped that following this event, more local companies will support this important national programme.

The exercise had two aims – to help increase Indonesia’s Red Cross stock of vital blood bags and secondly, to promote the positive impacts of blood donation within the company’s workforce, for both their own and the community’s health.

*PYX employees are tested prior to donating blood.*

As a follow-up after the completion of the blood donation programme, the company distributed questionnaires to all participants seeking their feedback. This information will be evaluated and used to help build a sustainable plan for future blood donation events.

After the event, participants and members of the local community commended PYX’s enthusiasm for the important health event under PYX Resources’ “PYX CARES” commitment to the communities it works in.

Comments from participants included: “We are very grateful for the humanitarian programme that PYX is doing, and we will support it in the future if it is held again.”

The locals also revealed that they hope the blood donation drive can be repeated on a regular basis, suggesting that through the enthusiasm of the company and participants it could be held every six months. Participants also acknowledged the benefits the programme provided in raising health awareness.

Inspiration for “PYX Cares” came from the Sustainable Development Goals (SDGs) set out in the United Nation’s Development Programme. The initiative is the company’s blueprint for making a positive impact in the communities in which it operates and is critical to achieving sustainable

growth. At PYX, it is understood that long-term goals can only be achieved if strong, mutually beneficial relationships are forged with local people, and if operations are carried out responsibly.

**Oliver Hasler, Chairman and Chief Executive Officer, commented:** “I am very proud of the enthusiasm shown by our employees and believe our PYX Cares programme will serve as inspiration for other companies to follow. In Tumbang Empas, PYX employees and the community now have a far better understanding of the importance of blood donations and of their own health needs.”

**About PYX Resources**

PYX Resources Limited (NSX: PYX) is a major global producer of premium zircon listed on the National Stock Exchange of Australia. PYX’s key deposits, Mandiri and Tisma, are large-scale, near-surface open pit deposits both located in the alluvium-rich region of Central Kalimantan, Indonesia. PYX, whose Mandiri deposit has been in production since 2015, is the 2nd largest zircon producing mining company globally by zircon resources. Determined to mine responsibly and invest in the wider communities where we operate, PYX Resources is committed to fully develop its Mandiri and Tisma deposits, with the vision to consolidate the mineral sands resources in Kalimantan and explore and acquire mineral sands assets in Asia and beyond.
