PYX Resources (PYX) – Corporate - PYX secures GBP20m Investment Commitment

Market Cap £258.5m Share Price 59p

Today PYX announces that it has secured a commitment from Global Emerging Markets (“GEM”) to invest up to GBP£20m to expand the Mandiri operation as PYX aims to become the leading global producer of Zircon. Under the terms of the agreement PYX will control the amount and timing of investment over a 36-month period, there is no minimum subscription obligation. PYX will pay GEM a fee of £400k within a period of 12 months from the date of execution of the agreement. Further details of the investment commitment are provided in today’s RNS.

WHI View: The funding announced today will facilitate increased production of zircon, ilmenite and rutile at Mandiri, for which PYX has readily found buyers given the superior quality of its product. Increased rates of production will reduce unit operating costs and increase further the already healthy margins at Mandiri. Operational profitability will be further supported by the high prices for mineral sands, zircon in particular. We had already forecasted increased production in our DCF and today we maintain our fair value at 129p.
